New Jersey Chapter

We are Pleased to Present the Featured Guest Speaker for our March 6th Meeting:

We're Open for Business

Philip M. Coniglio
V.P. of Operations
CPC

121 Express Street
Plainview, NY 11803

ABSTRACT

In 2007 Long Island Forum for Technology's management conceived of a project to build a *Composite Manufacturing Center* on Long Island, NY to help improve the local economy by making available the training and tools for small and medium size manufacturing companies to transition from working with AL and steel to advanced composites such as fiberglass, carbon and aramid composites.

To validate the project's worth to the LI's economy and to measure the interest from industry, academia and government, LIFT held a two day symposium "*New York State Summit on Advanced Composites*" at Hofstra University on February 6-7, 2008.

The event was extremely successful with 11 universities and 24 companies presenting to over 100

total attendees. The data and conclusions from the summit resulted in LIFT receiving \$15 million grant from New York State to build the Composite Prototyping Center (CPC).

CPC's VISION: To be the premier resource for technology-driven industrial growth, through the hands-on application of advanced composite technology know-how and the forging of strategic relationships.

CPC's MISSION: To improve profitability to our clients and create economic growth and job creation here in the northeast.

BIOGRAPHY

JPhilip Coniglio is a senior manufacturing operations executive with forty years of experience in all aspects of manufacturing operations and plant facilities management. He is currently the Vice President of Operations of the Composite Prototyping Center, a wholly owned subsidiary of Long Island Forum for Technology (LIFT). He is responsible for the acquisition of CPC's facility, plant design, equipment purchases and project management of the building construction and equipment installation.

Previously he was V.P. Operations of SMSC, a \$600 million semiconductor company, Director of Manufacturing of Robotic Vision System, a test equipment manufacturer. He holds a Master of Science, Management from NYU- Poly and a Bachelor of Electrical Engineering from CCNY.
