

We are Pleased to Present the Featured Guest Speaker for our November 7th Meeting:

Energy 2014 to 2025

Jerry Grzybowski

**Director, Energy Hedging & Accounting
Chemical Energy Management NA**

Evonik Corporation

ABSTRACT

The presentation will discuss current and future issues and expectations dealing with energy prices, supply and demand, Shale Oil and Gas, weather and energy, plus the U.S. economy and why Monday morning quarterbacking first started in the volatile world of Energy Management rather than in the National Football League.

BIOGRAPHY

Jerry Grzybowski has been with Evonik's Energy Management Department since July 2002. He received a B.S. degree in Accounting and a M.B.A. in Finance from LaSalle University in Philadelphia, and completed requirements as a Certified Energy Procurement Professional with the Association of Electrical Engineers.

He is currently responsible for hedging of Evonik's energy market exposure and reviewing market conditions in line with Evonik's overall strategy. He analyzes, negotiates, and purchases physical natural gas and electricity supply across North America sites and is responsible for the consolidation and publication of internal and external information relative to the energy market to Senior Management, Plant Managers and key internal energy network contacts. He also plays an active role in the lobbying area and expresses Evonik's views on various energy issues with the American Chemistry Council and the Industrial Energy Consumers of America.
